CHEAPBOTS

SIMPLE GUIDE · 2026

Tell it what you want. It plans, makes and posts.

This guide shows you, step by step and in plain words, how to get a post and a reel every day for your business — without learning any software.

Telugu · Hindi · English | Approve once a week | Works on your phone

THE WHOLE IDEA

CheapBots in 4 simple steps

You do only step 3. CheapBots does the rest.

1

You tell it

Type or speak: “Plan my week”, “Christmas reel in Telugu”, “Offer poster”.

2

It plans

A post and a reel for every day, festival greetings, the best times to post.

3

You approve once

Read the ideas, remove what you don't like, tap **Approve all**.

4

It makes and posts

Reels and posters are made and posted on time. Enquiries become leads.

Keep these ready before you start (5 minutes)

- **Phone or WhatsApp number**
- **Your logo (photo is fine)**
- **3 or more photos of your shop or work**
- **Your Facebook / Instagram page**

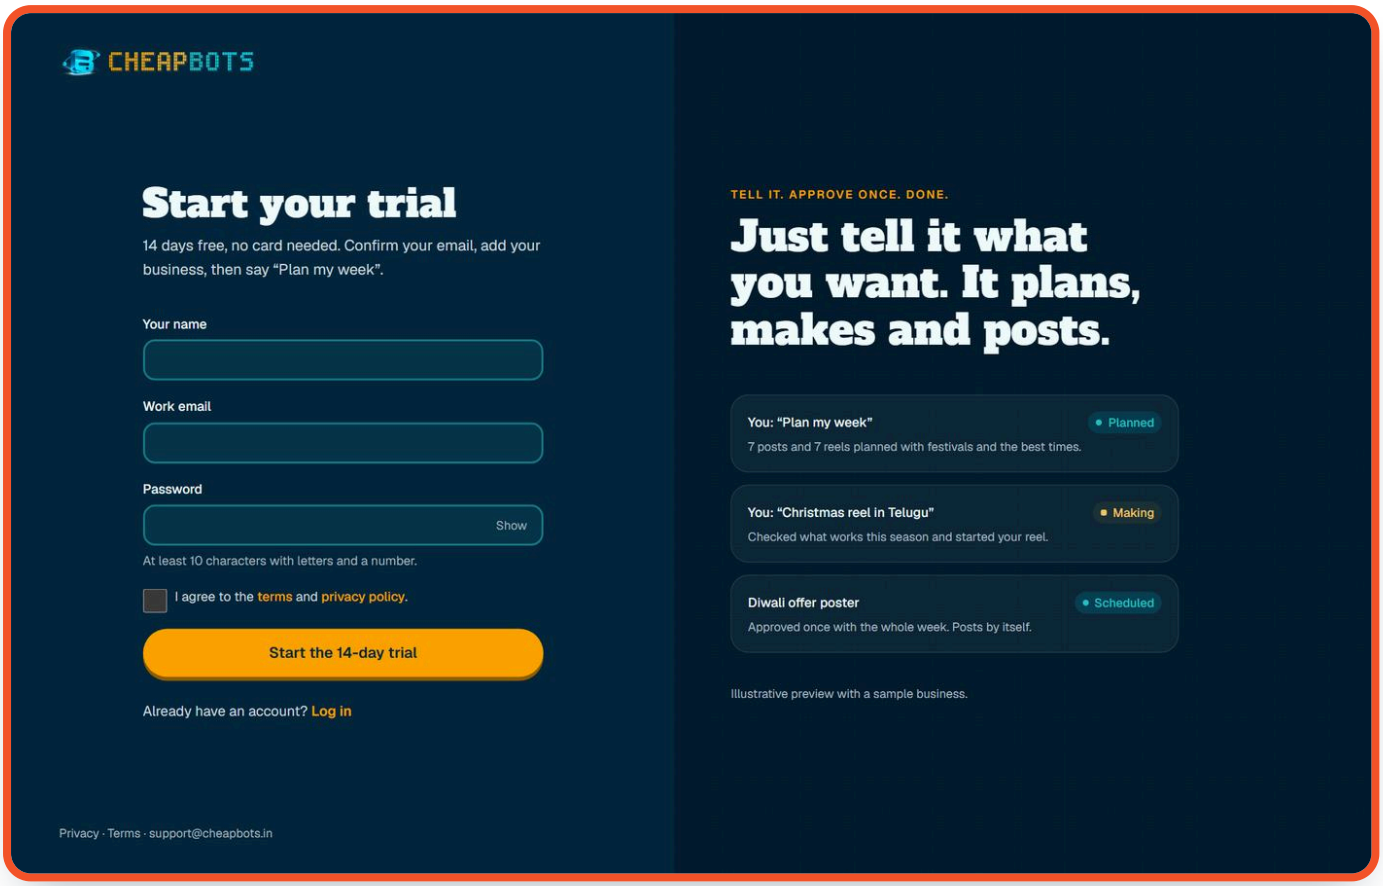

The menu has only 5 buttons

- **Home** — Talk to CheapBots
- **My plan** — Check and approve
- **My posts** — Everything made
- **Leads** — Your enquiries
- **My business** — Your details

STEP 1

1 Sign up

Make your free account. It takes one minute.

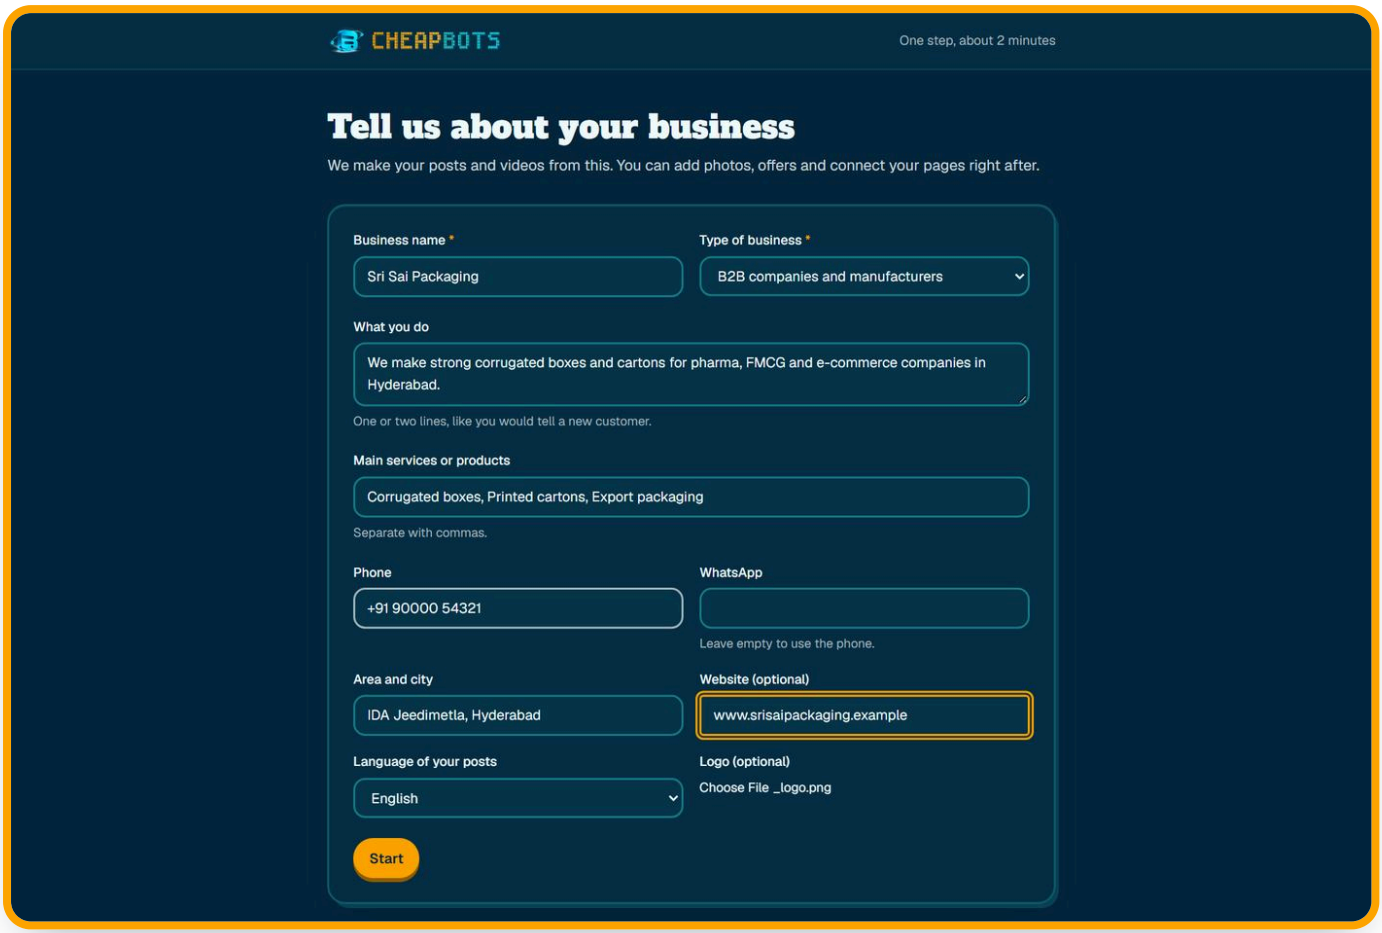

1. Open **cheapbots.in** and tap **Start a 14-day trial**.
2. Type your name, email and a password. Tick the box and tap the button.
3. Open the email we send you and tap **Confirm my email**.
4. Type your business name and choose **Company** (you run your own pages).

> 💡 **Tip:** Use an email you check every day. Notices about your posts go there.

STEP 2

2 Tell us about your business

One page. CheapBots uses these details on every post.

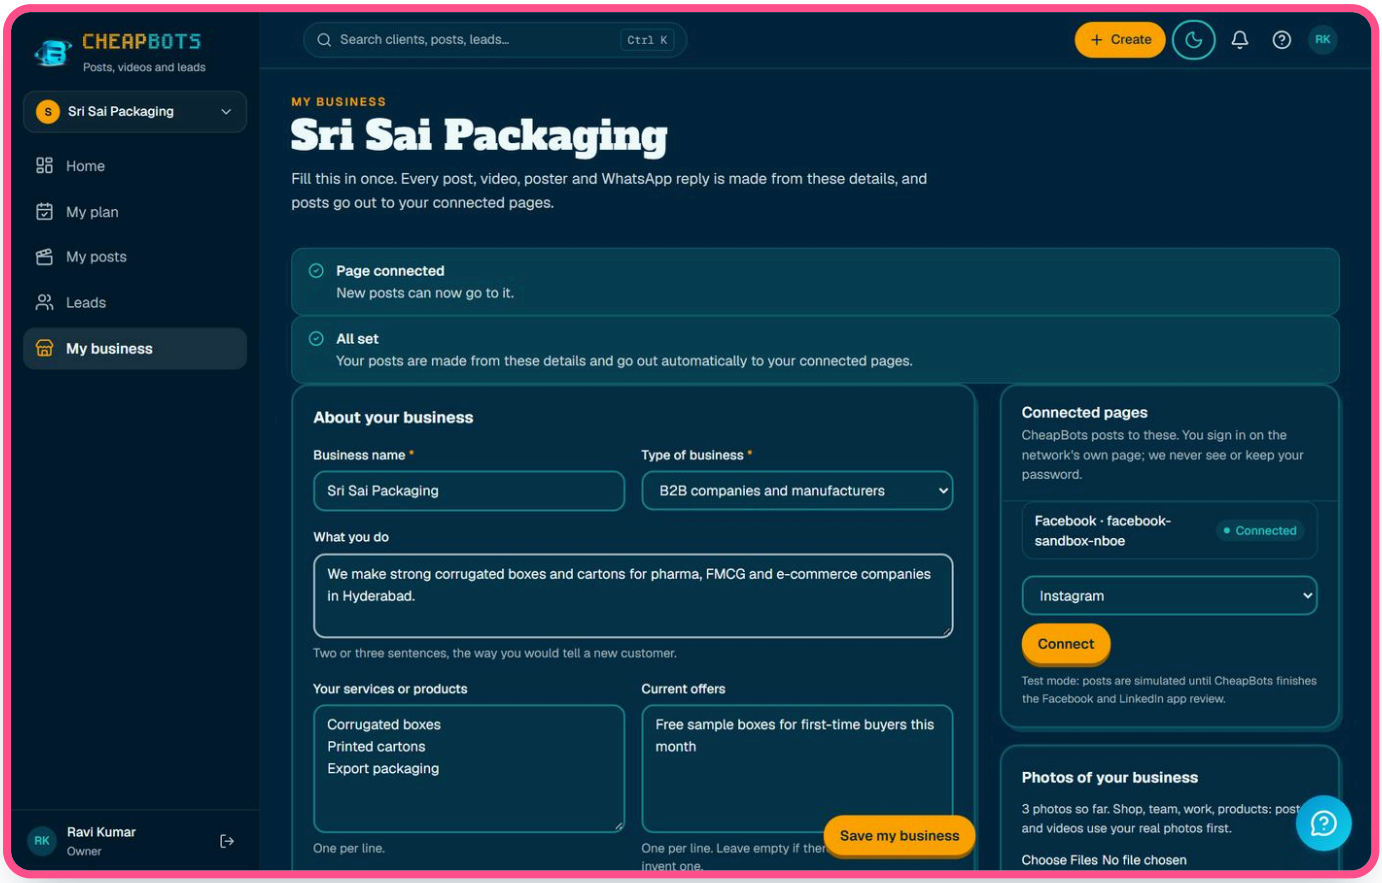

1. Choose your kind of business (shop, clinic, salon, builder…).
2. Write in one line what you do, and your main services.
3. Add your phone number, address and website if you have one.
4. Upload your logo and tap **Start**.

> 💡 **Tip:** Write your real services and offers. CheapBots never makes up prices or numbers — it only uses what you give.

STEP 3

3 Connect your pages

So CheapBots can post for you. You log in on Facebook's own page — we never see your password.

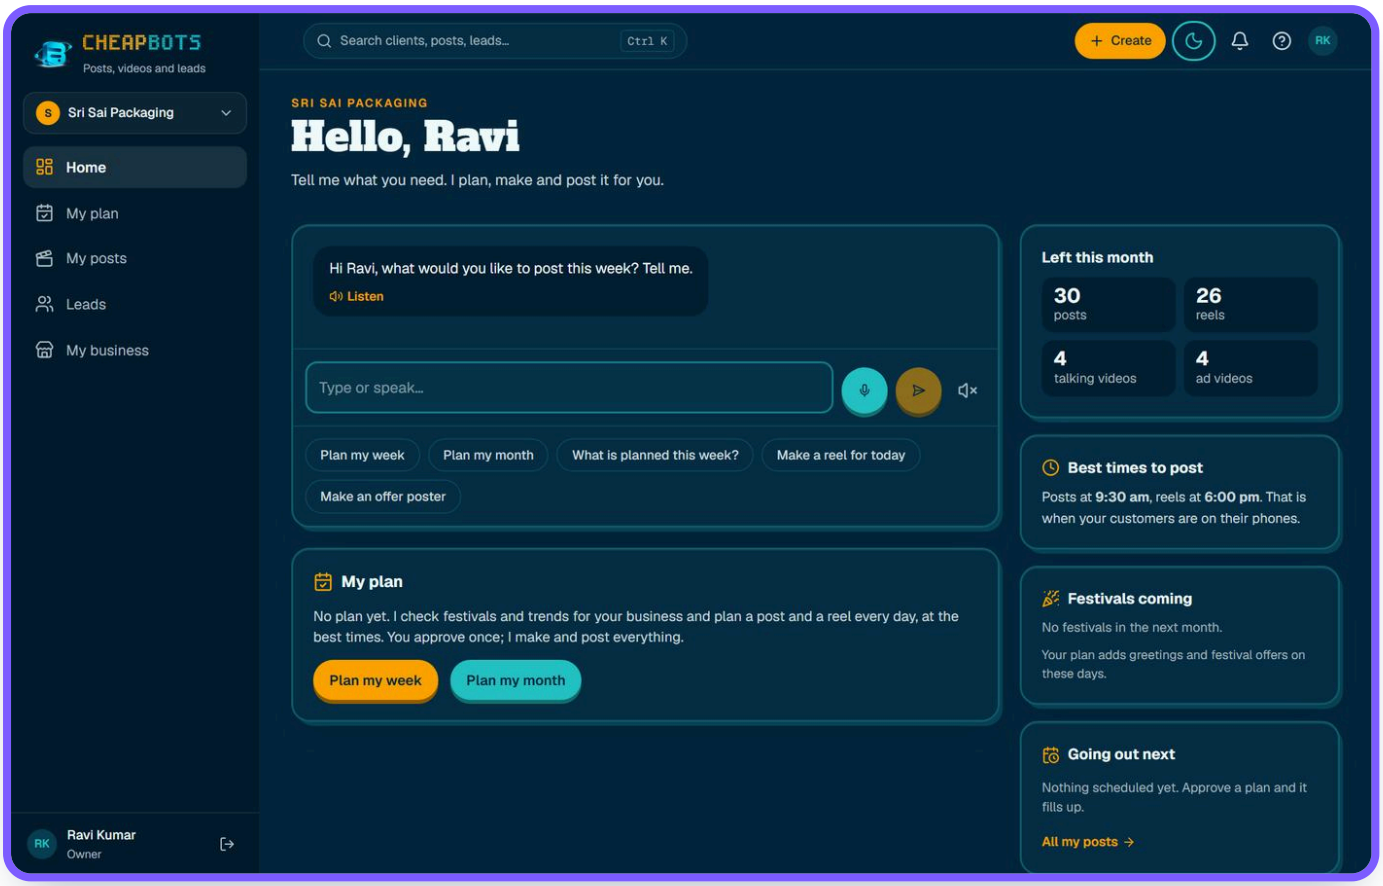

1. Open **My business** from the menu.
2. Add your offer, timings and 3 or more photos. Tap **Save my business**.
3. Under social pages, choose Facebook or Instagram and tap **Connect**.
4. Tap **Allow** on the Facebook page. You come back connected.

💡 **Tip:** Turn on **Post automatically** in My business if you also want single posts to go out without asking. Plans always wait for your Approve all.

STEP 4

4 Meet your assistant

Home is one box. When you log in, CheapBots says hello to you by name.

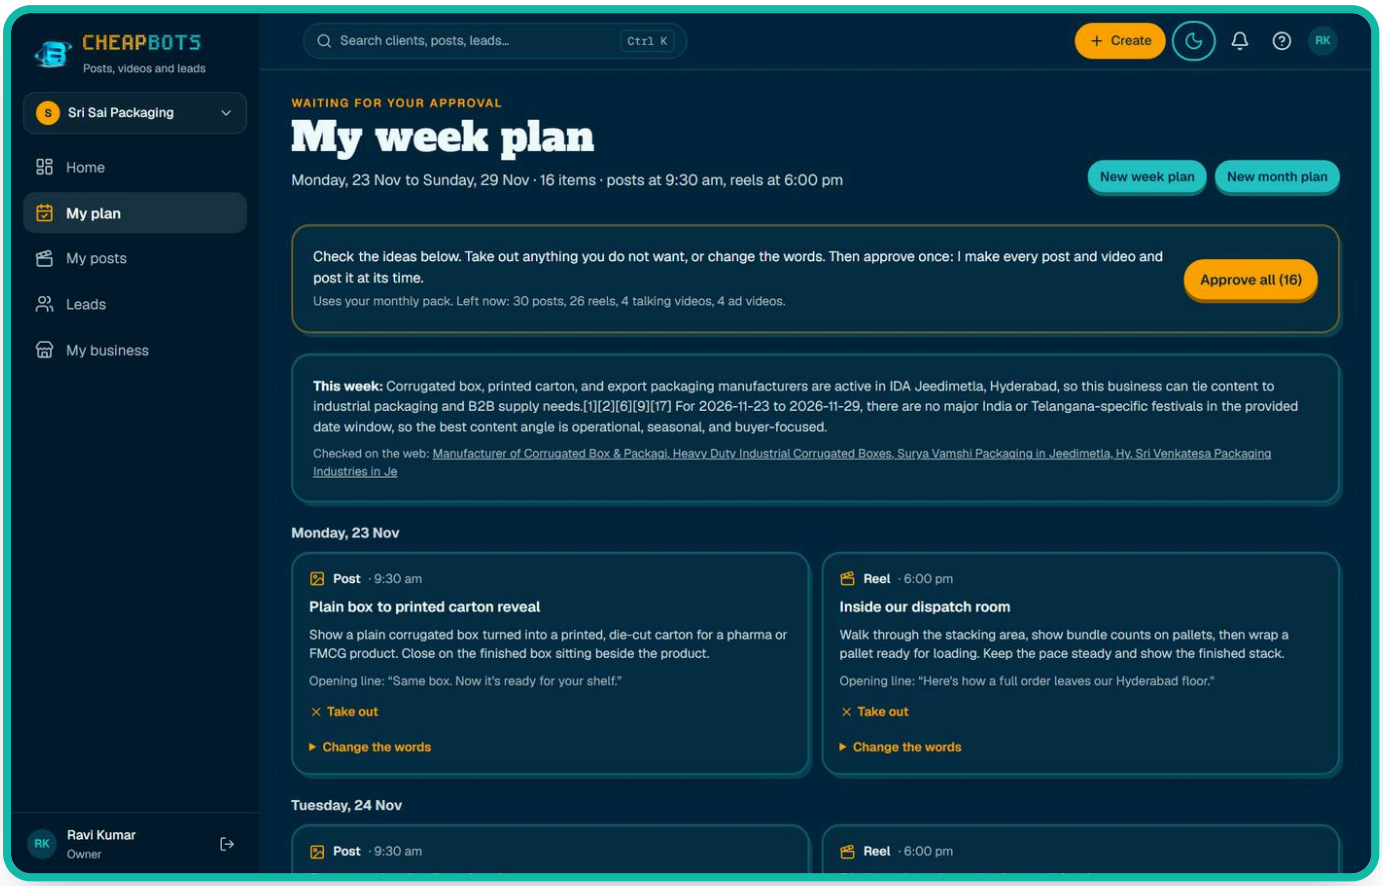

1. You hear: *"Hi Ravi, what would you like to post this week? Tell me."* If the browser asks, tap **Tap to hear**.
2. Type in the box, or tap the 🎤 **mic** and speak in Telugu, Hindi or English.
3. Or tap a ready button: **Plan my week**, **Plan my month**, **Make a reel for today**…
4. Every answer is read aloud. Tap **Listen** to hear it again, or the 🔊 button to turn voice off.

> 💡 **Tip:** On the right you always see what is left this month, the best times to post, and festivals coming.

STEP 5

5 Plan my week (or month)

Tap Plan my week. In about 30 seconds your plan is ready.

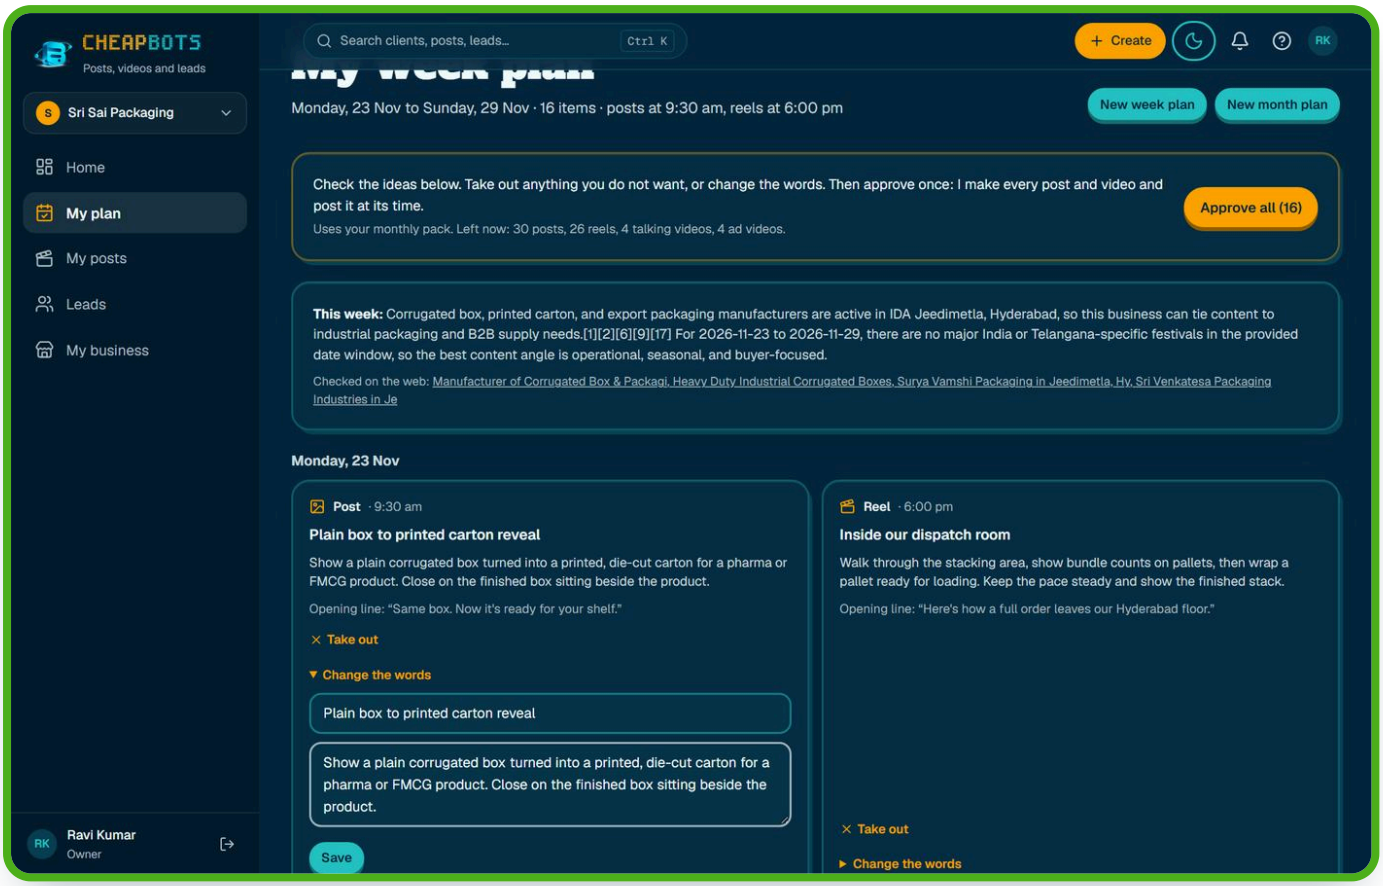

1. CheapBots checks festivals and what is trending for your kind of business.
2. It plans a **post** and a **reel** for every day, plus a talking video and an ad.
3. Each item shows the day, the time, the idea and the opening line.
4. Festival days show a coloured badge, like **Diwali**.

> 💡 **Tip:** Nothing is made and nothing is used from your pack until you approve.

STEP 6

6 Change and approve — once

You are the boss. Check the ideas, then one tap does the whole week.

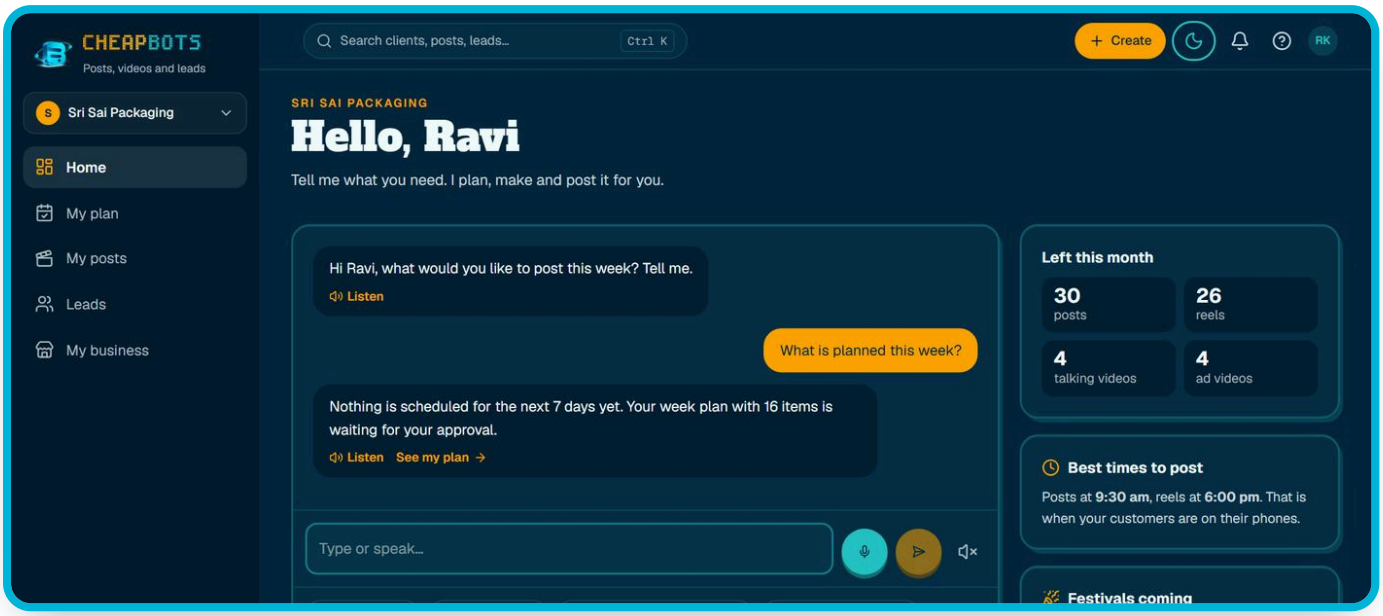

1. Don't like an idea? Tap **Take out**. Changed your mind? Tap **Put back**.
2. Want different words? Tap **Change the words**, edit, and tap **Save**.
3. When you are happy, tap the big **Approve all** button.
4. Done! Each item is made a little before its day and posted at its time.

> 💡 **Tip:** After approval the plan shows each item as **Making**, **Scheduled** or **Posted**.

STEP 7

7 Just ask — like talking to a helper

Say it in your own words. Here is what happens.

"What is planned this week?"

It tells you out loud what is scheduled, what is being made and what waits for you.

"Christmas reel in Telugu"

It searches what works for the season, writes the idea and makes the reel in Telugu.

"(paste an Instagram reel link)"

It studies how that reel is made and gives you 3 versions with your own details.

"Make an offer poster"

It opens poster designs with your logo and phone already filled in.

"Make a talking video about our service"

A short video answering what customers ask most.

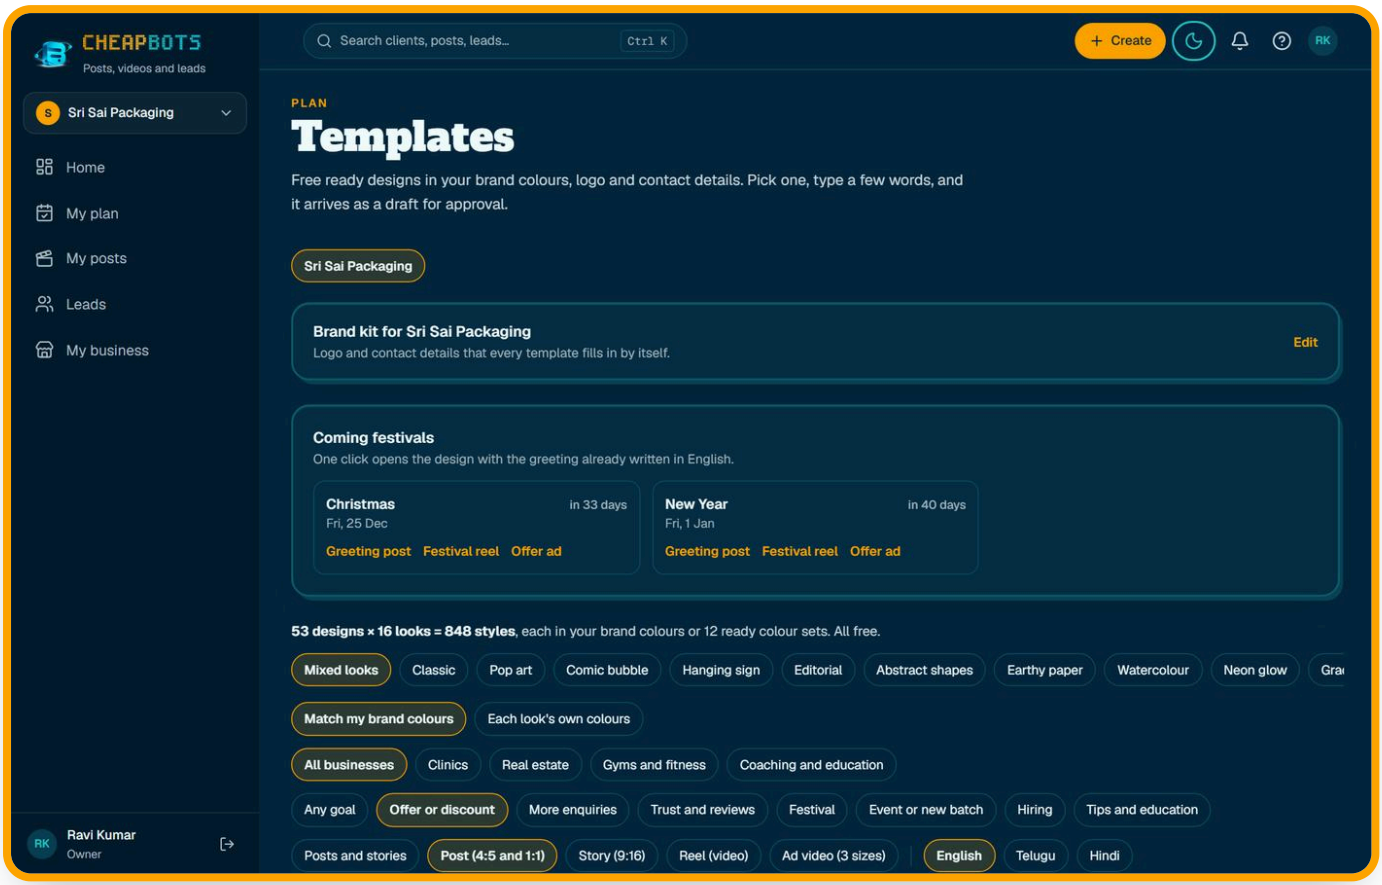

"When should I post?"

A short answer from a fresh web search, and an offer to make it for you.

STEP 8

8 Posters you can edit

Offers, festivals, hiring, tips — ready designs with your details.

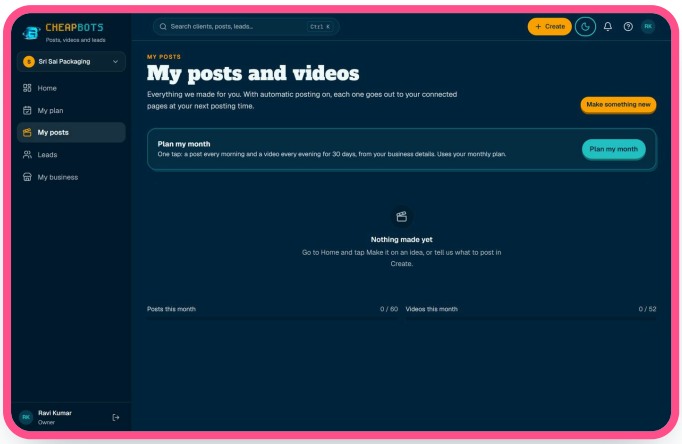

1. Say **“Make an offer poster”**, or tap the button on Home.
2. Pick a design you like.
3. Change the words (offer, price, dates). Your logo and phone are already there.
4. Save it. It goes to My posts and posts like everything else.

STEP 9

9 My posts and Leads

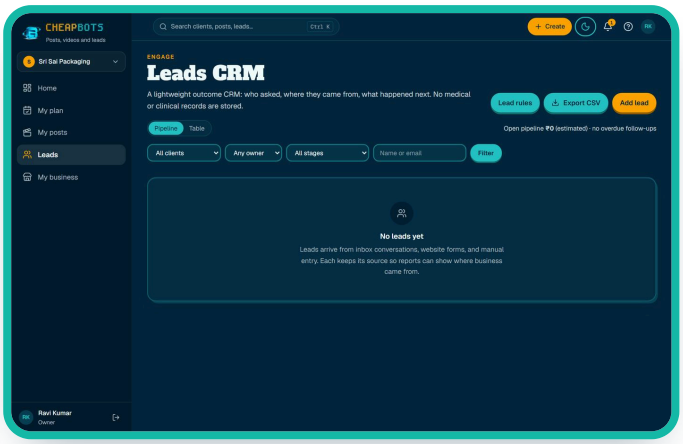

See everything that was made, and every customer who asked.

My posts

- Every reel, poster and video, and when it posts
- Open one to see it, download it or change it

Leads

- WhatsApp and page enquiries land here
- Name, number, what they asked, and a reminder to call back

What CheapBots makes for you

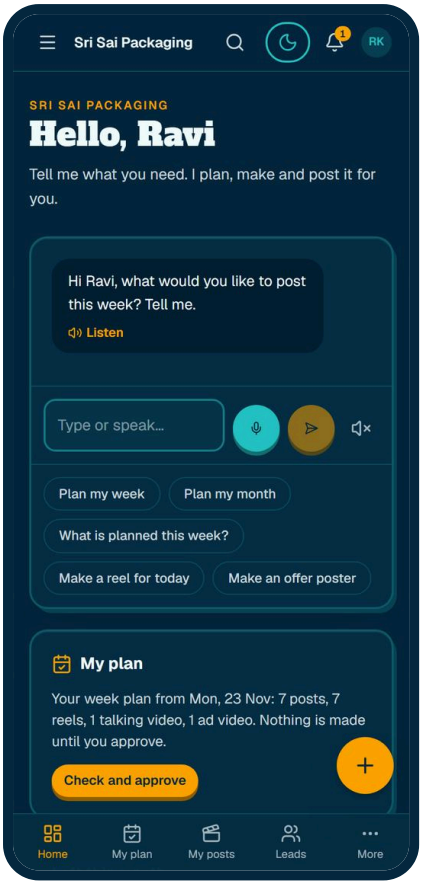

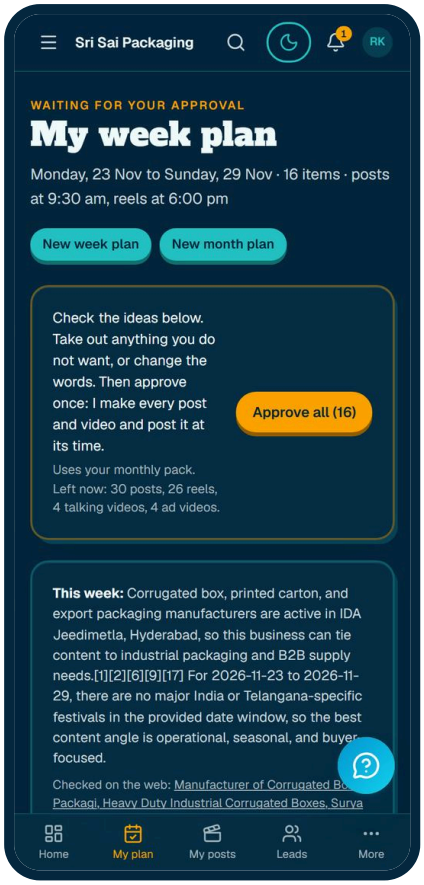

Examples made for sample businesses.

ON YOUR PHONE

Everything works on your mobile

1. Open **cheapbots.in** in Chrome on your phone and log in.
2. Tap : then **Add to Home screen**. Now it opens like an app.
3. The buttons at the bottom: Home, My plan, My posts, Leads, More.
4. Tap the 🎤 mic and just talk.

Good habits

✅ Do

- Plan on Monday morning and approve in one go
- Keep your offers and services up to date in My business
- Add new photos of your work every month
- Call back new leads the same day

❌ Avoid

- Prices or offers you can't honour
- Disconnecting your Facebook page (posts stop)
- Approving a plan without reading the festival days
- Sharing your login with strangers

Quick answers

How many posts do I get?
Home shows “Left this month”. The plan never uses more than you have. It resets on the 1st.

Will it post without asking?
Plans wait for Approve all. Single posts go out automatically only if you turn that on in My business.

My language?
Telugu, Hindi and English — for talking to it, for posts and for voice-overs.

Need help?
Tap the ? help button in the app, or write to support@cheapbots.in.
